1&2 BHK dream home & Shops

EXCELLENCE IS IN THE DETAILS. GIVE ATTENTION TO THE DETAILS AND EXCELLENCE WILL COME.

....with the penchant for even the minute detail in attaining perfection, Jay Residency embarked on the path of excellence. It was a journey taken with an aim of adorning the city with edifices par excellence. we never went out there for constructing anything, rather we have always believed in creating something very special... be it residential.

Carefully planned and meticulously executed.... Jay Residency is not just projects... but realizations of the dreams that our satisfied customers envisioned.
