NET POSITIVE.
BECAUSE TOMORROW
SHOULD BE
BETTER THAN TODAY.

Buildings and infrastructure can leave an imprint on the planet that can last for decades – much longer than cars or electronic devices. This is why, building smartly and sustainably is the key to ensuring a better world for us and future generations. As India's No.1 developer, we have taken the lead to ensure that our impact on our environment and society is net positive.

ADVANCED TECHNOLOGIES

At Lodha, we deliver the world's finest developments by working with the best and brightest across the globe and implementing cutting-edge technology. We follow the renowned Total Quality Management (TQM) system, and use 3D computer generated models (BIM) which allows a smarter and faster design process, and intricate planning and visualisation. We use AI to glean new findings from our data, and use aluminium formwork technology to make our structures highly durable and resistant to seismic activities. We also use pre-fab units like doors and windows to reduce manual intervention and improve quality. Everything, from conception to construction, is supported by a series of intelligent and innovative processes.

NET ZERO CARBON BY 2035

Lodha is committed to reducing its scope 1 and 2 carbon emissions significantly, and intends to be a net zero carbon emissions company by 2035. We are also committed to 100% waste water recycling across our developments, relying more on green power, and increasing the tree cover of every site we acquire. We are working closely with global experts, including the Rocky Mountain Institute (Colorado, USA) to achieve these goals and set a global benchmark for sustainable development.

SOCIAL HOUSING

We are building hundreds of homes, which will be given to families in need at a nominal cost. The desire for home ownership is universal and by offering good quality housing to the weakest economic strata, we plan to create a more equal society.

HIGHEST STANDARDS OF HEALTH AND SAFETY

The world's finest developments are built by individuals who stop at nothing to ensure that every detail is perfect. To us, our highest priority is our customers' health and well-being.
