

An island of luxury

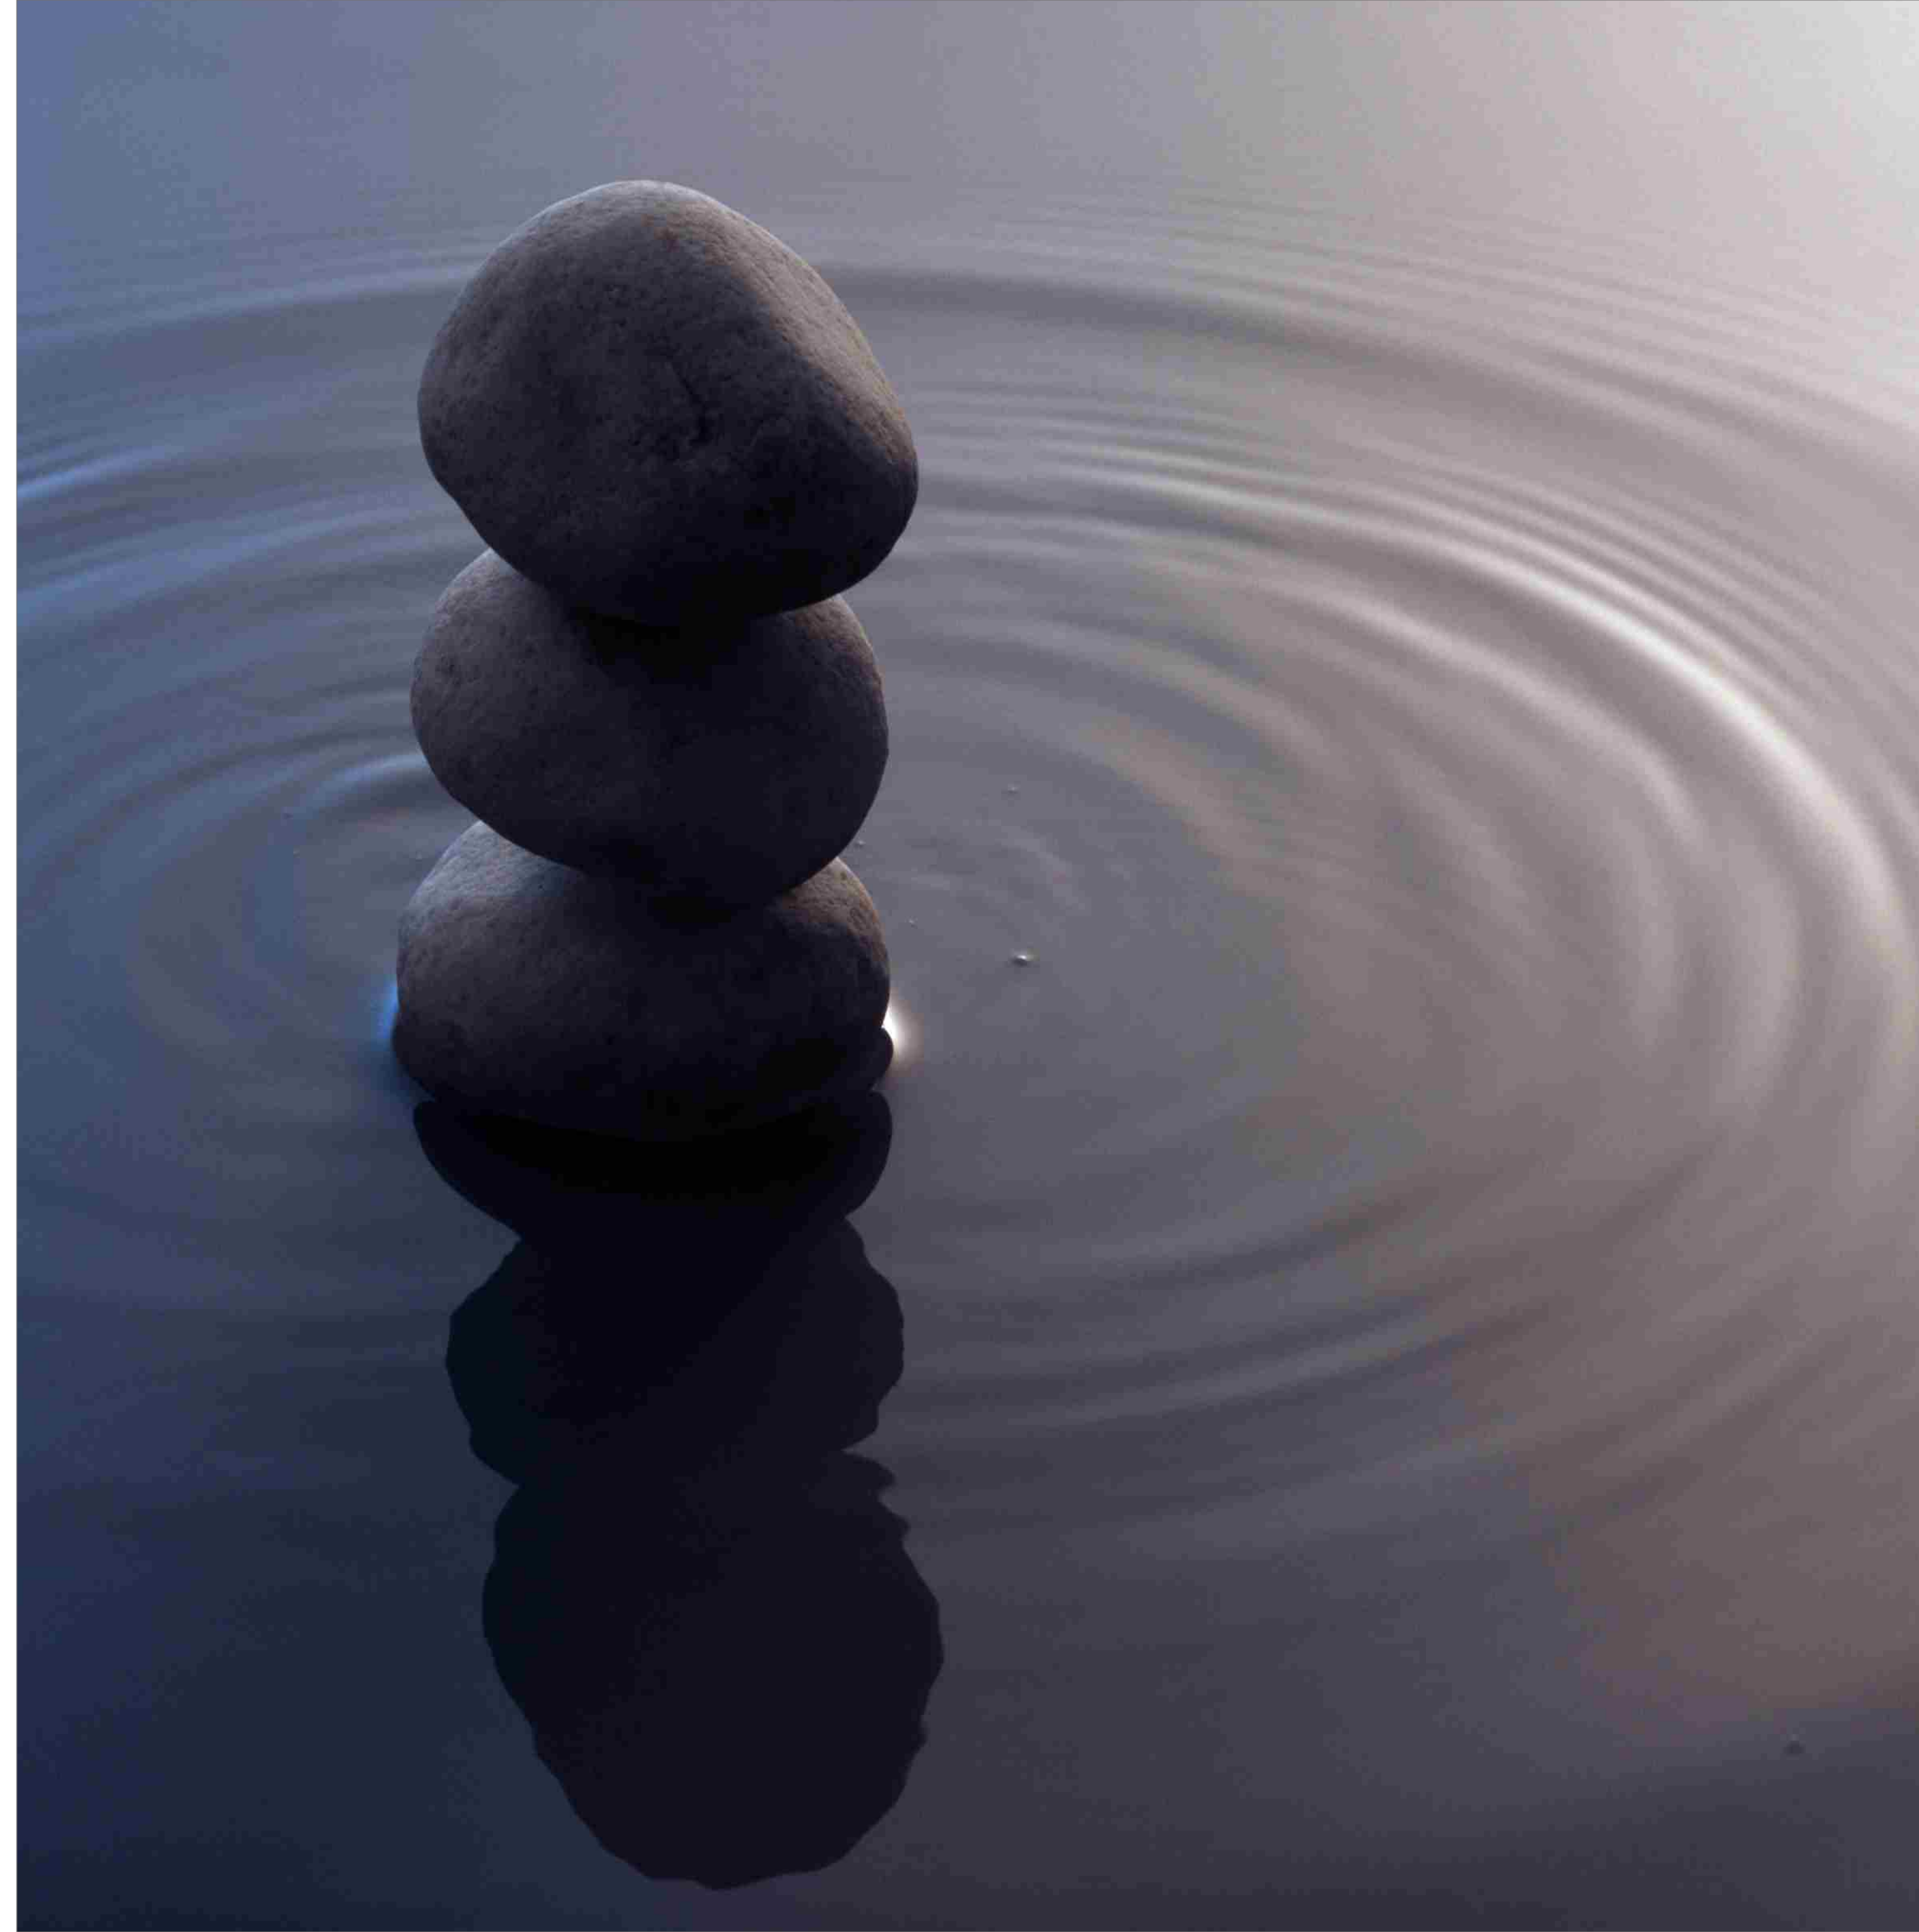

The definition of a perfect home has evolved over time. It goes beyond providing a mere living space. It becomes a lifestyle statement.

Presenting Lodha Aqua: an urban township in Dahisar, planned like no other and spread across 11 acres. Where nature and the comforts of modern-day living strike a perfect balance. Where the sound of flowing streams and swaying trees calms you and lifts your spirit.

Lodha Aqua derives its name from one of nature's most pristine elements: water. The water-inspired landscape is punctuated by fountains and waterfalls, shimmering water bodies and streams - charming you with their fluid form and beauty.

The perfect haven for you and your family.

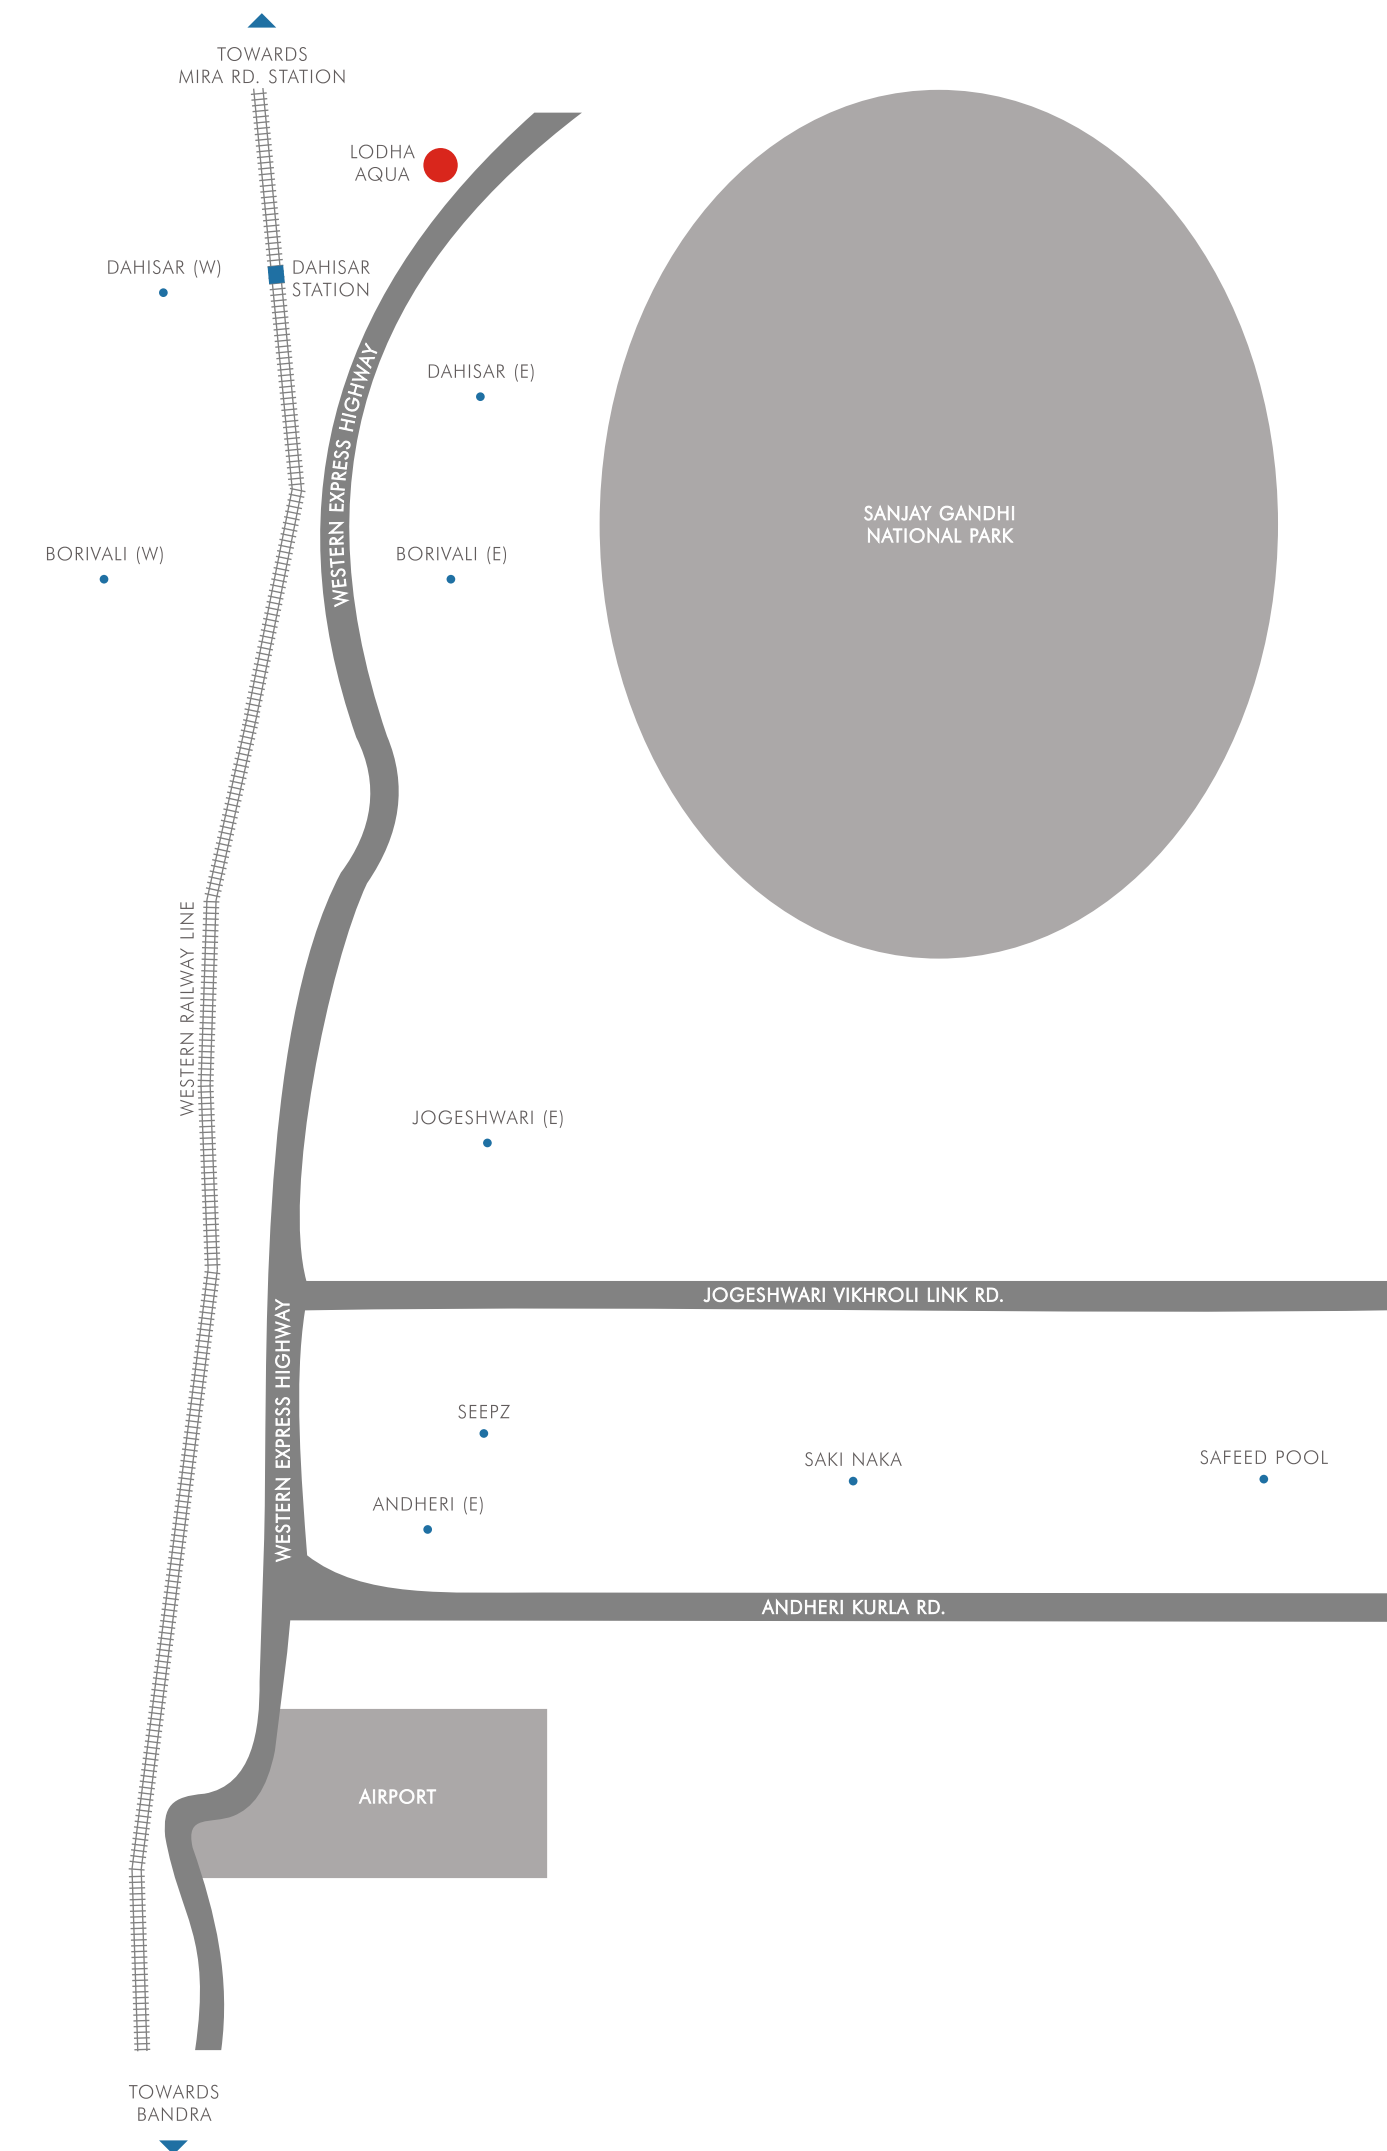

“The concept of Lodha Aqua was to go beyond providing just another spacious residential neighbourhood. The endeavour was to combine luxury with innovative planning and infrastructure to deliver an address that would provide the ideal living space.

What makes this particular township unique is the fact that it is housed on the largest podium in the western suburbs. And has been conceived around 3 axes - seamlessly integrating the elements of water, nature and social harmony. The distinctive water-inspired landscape has been designed exclusively by Sitetectonix, Singapore. I believe these factors have greatly contributed in giving the township an international, urban and contemporary edge - with vast expanses of green open spaces criss-crossed by flowing water, creating a soothing environment that makes you feel one with nature, yet puts every contemporary comfort at your feet.”

- Kiran Kapadia
Architect

LODHA AQUA: MAKING WAVES

Located on the Western Express Highway, this large acreage township is a mere 3 kilometres from the Dahisar and Mira Road railway stations, and 500 metres from the Dahisar Check Naka. Owing to its central location, Lodha Aqua is only a half hour away from Thane by road and a 20-25 minute drive from the Bandra Kurla Complex and international and domestic airports.

It is situated in the vicinity of six prominent ICSE schools: the Singapore International School, St. Mary's High School, St. Thomas High School, Swami Vivekananda Vidyalaya, VPM Vidya Mandir and the Rustomjee International School. While shopping is just across the road, at the Thakur Shopping Mall and Multiplex and India's largest mall, Balwas.

The upcoming Mumbai Metro Railway project will ensure Dahisar is easily accessible from locations like Mulund, Colaba and the Bandra Kurla Complex. To be developed in two phases, the first phase of the Metro, connecting Charkop and Dahisar, will be completed between 2011 and 2016. While the second phase, connecting Andheri and Dahisar, will be completed between 2016 and 2021.

Lodha Aqua is, simply put, the complete lifestyle destination. It combines all the comforts, conveniences and luxuries of modern day living to create a world-class environment - where nature and urban living co-exist in perfect harmony.

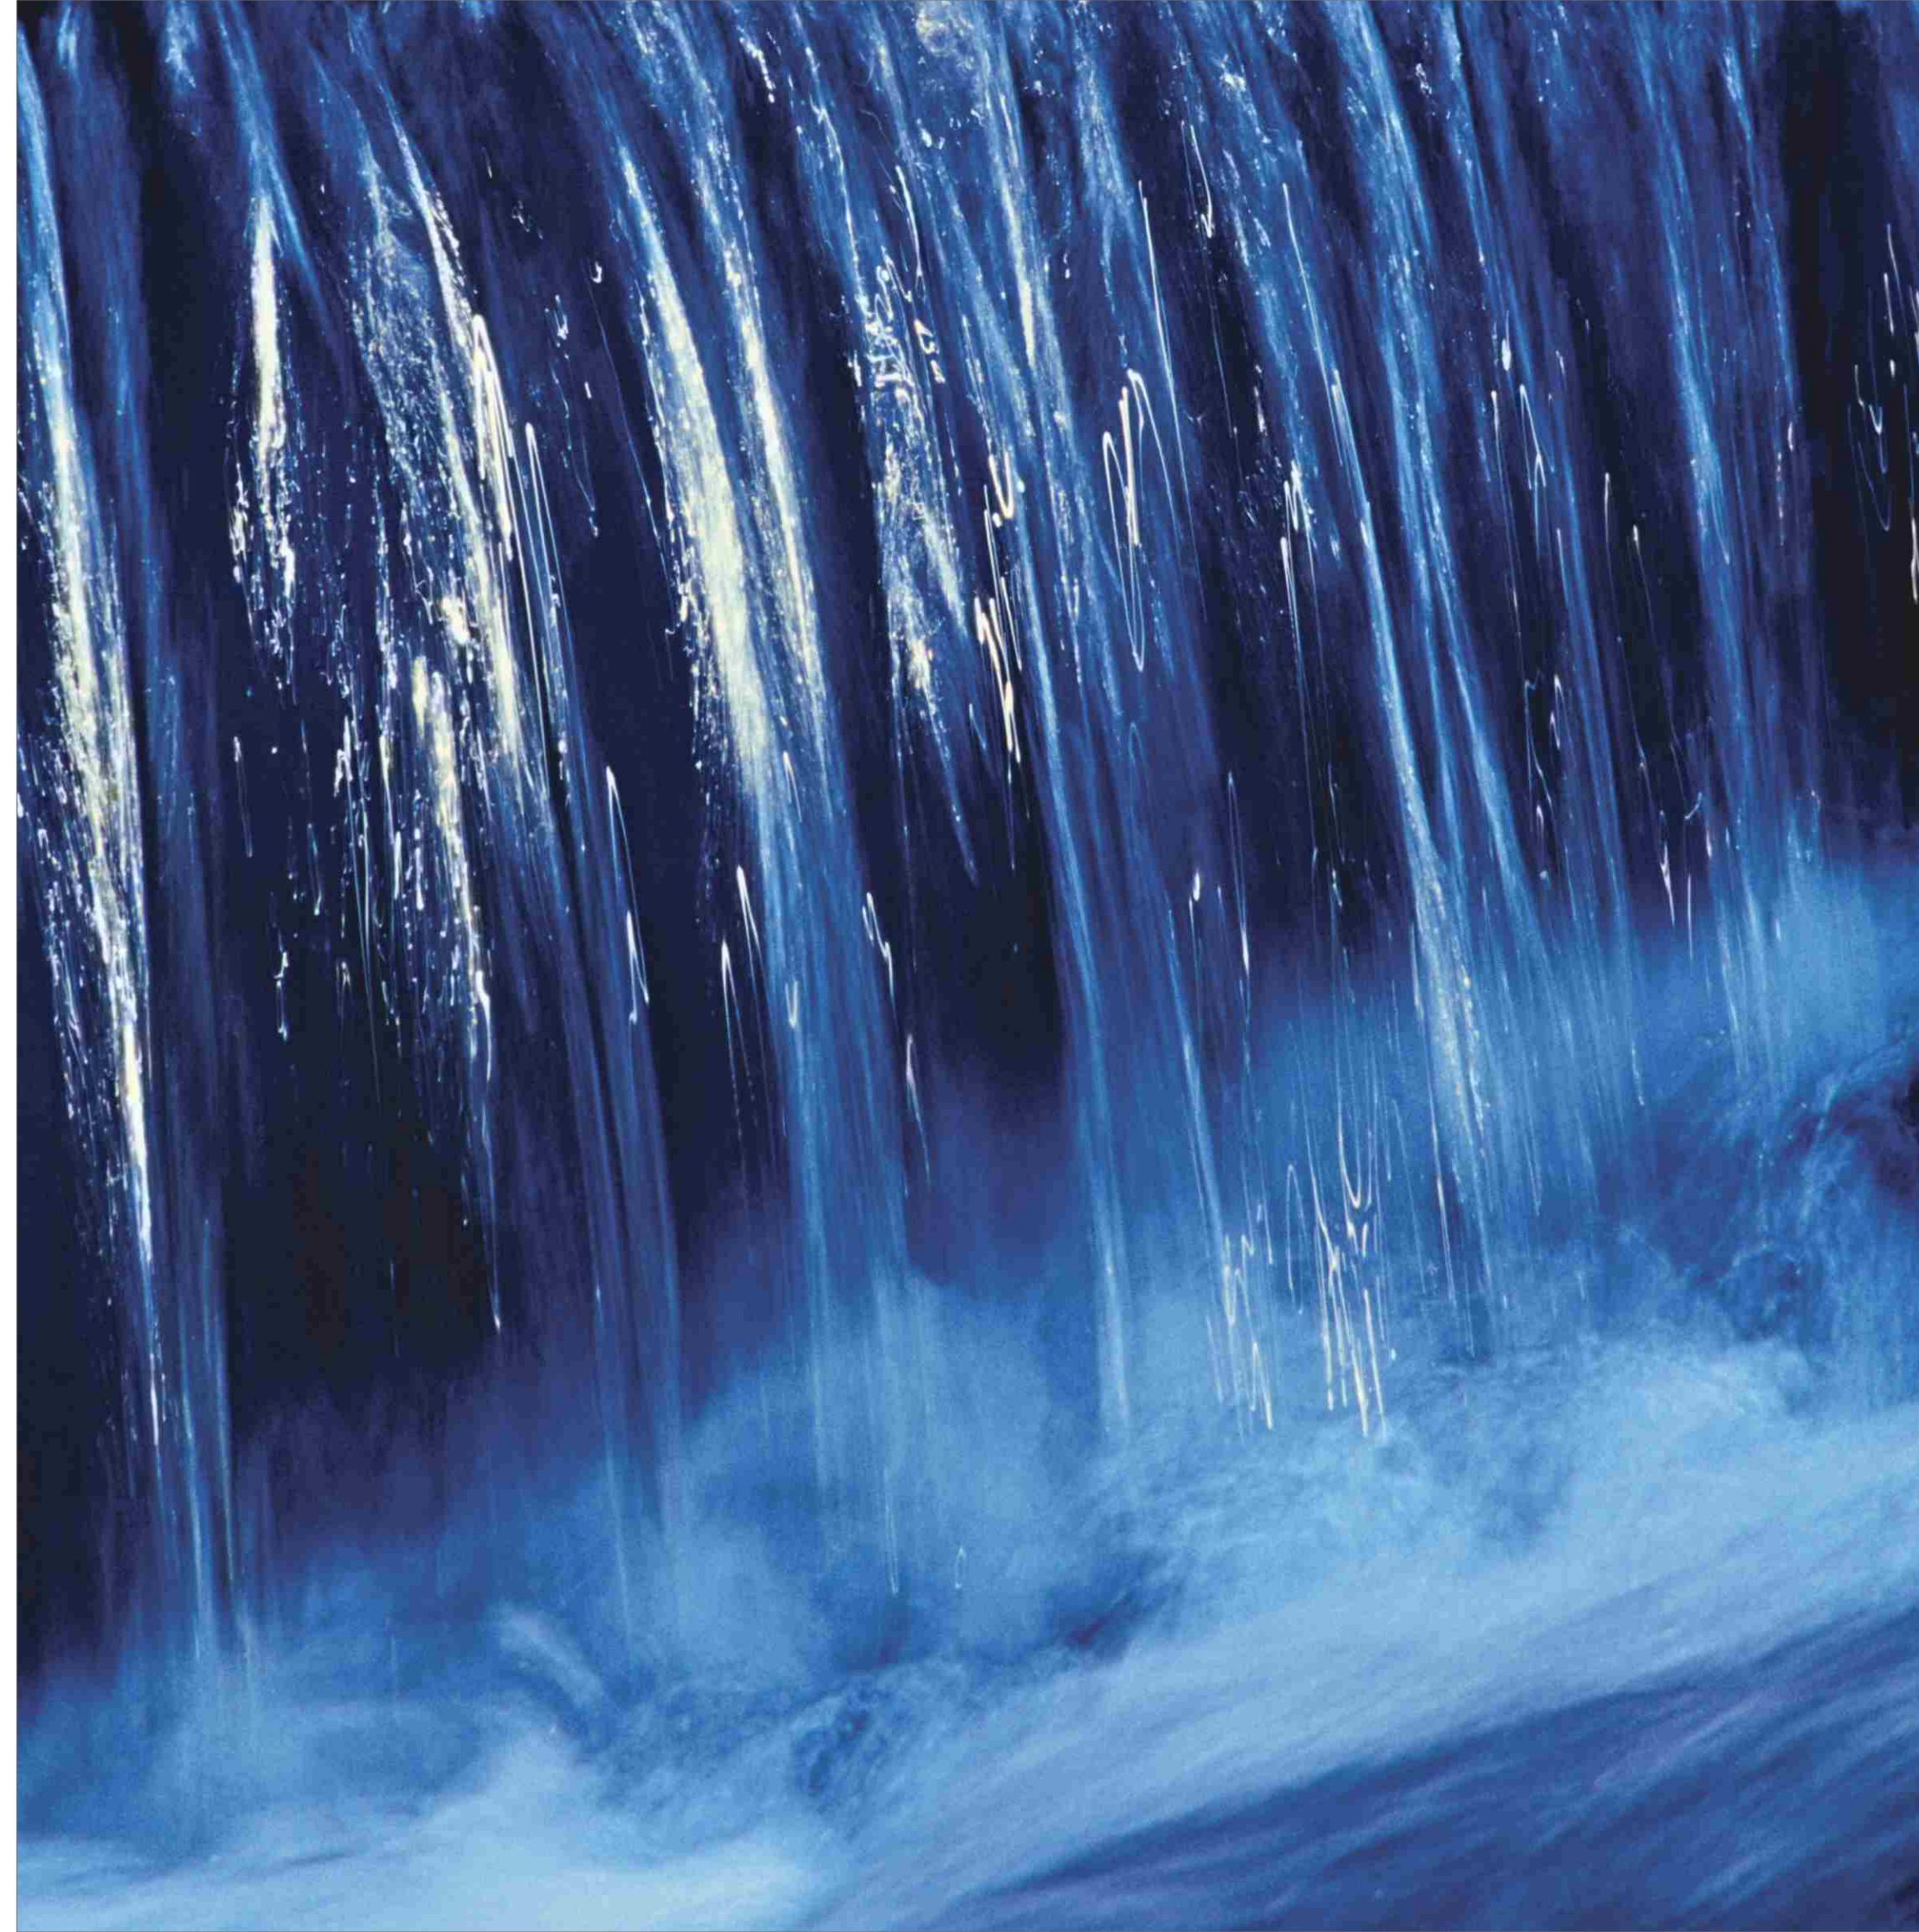

A SCHOOL OF YOUR OWN

You will have your very own ICSE school at Lodha Aqua: the Chandresh Lodha Memorial School. A school designed to international standards and offering only the finest facilities and amenities, it will be fully functional by mid 2010 - providing your children with the finest education and recreational activities.

SHOP TILL YOU DROP

A retail mall is being developed adjacent to the township. This will cater to the discerning and varied lifestyle needs of its inhabitants, while offering some of the biggest international brands - accessories, apparel, footwear, provisions, you name it. While the food courts here will tempt you with a wide array of cuisine. And the best part is, you would have done all your shopping without even venturing out.

THE COMPLETE LIFESTYLE DESTINATION

Lodha Aqua ushers you into its tranquil surroundings, and before you even realize it, you are transported to another world. Cascading waterfalls greet you at the entrance, and set the tone for what you are about to behold: a water-inspired landscape. Here, water takes myriad forms, fluidly shaping itself into reflecting pools and winding waterways, lily ponds and majestic fountains. While tree-lined avenues and open green spaces strike a harmonious chord with nature, to create a haven of tranquility.

- › Water-inspired landscape
- › Serene water bodies, waterways and water walls
- › International designer landscaping by Sitetectonix, Singapore
- › Wide internal roads and beautiful tree-lined avenues
- › Largest podium in the western suburbs spread over more than 20,000 sq. mtrs., housing a large central green spread over 16,500 sq. mtrs.

FLOWING LANDSCAPE

Set against this beautiful backdrop are 11 towers that form part of four unique clusters: Pacifis, Atlantis, Artica and Antartica - names inspired by the oceans of the world. Each tower rises majestically into the sky - overlooking meandering pathways and sparkling water bodies that capture the charm and unspoiled beauty of this township.

Recreational facilities at Lodha Aqua cater to the needs of mind, body and soul. The grand clubhouse comes with a fully equipped gym, swimming pool and indoor games arena. For those in pursuit of spiritual solace, the meditation pavilion is only a short walk away. While facilities for cricket and badminton provide sports enthusiasts an active way to spend their evenings.
