

Welcome to  
a world of difference...

Introducing   
**Silver Springs**  
a world of difference.

Feel the difference of a totally integrated township that's sprawled over a luxurious 139 acres of prime space.

Feel the difference of living in a world-class, aesthetically designed township.

Feel the difference of living in the lap of nature.

Feel the difference ..... of Silver Springs.

# Silver Springs has the assurance of FDI, backed by First Indian Real Estate Capital Fund

FIRE Capital is the first real estate private equity fund that is bringing in foreign direct investment from the United States of America. Reputed investors in the FIRE Capital bring on board their extensive real estate experience both in Indian and International markets. FIRE Capital's active participation in the funding and development of Silver Springs is your assurance of right pricing, timely deliveries, high-quality construction and the highest standards of maintenance.

## Silver Springs has been designed by those who have designed The Gazprom Tower, Russia and the Beijing Olympics Convention Centre

RMJM is UK based and one of the world's largest architectural firms. With ongoing projects in more than 15 countries, they cover many sectors including education, commercial, master planning, hotel and leisure, retail, residential, scientific research and civic buildings. RMJM's portfolio, which includes some world-renowned projects such as the Beijing Olympic Convention Centre in China and Gazprom Tower in Russia, speaks for itself. Their international experience will be instrumental in bringing contemporary design and world-class planning to Indore.

# Silver Springs : The truly self-contained township - the first of its kind in Indore

Silver Springs is an integrated, end-to-end designed, fully built-up, self-contained township. Villas, Row Houses, Terrace Cottages, Duplexes, Multi-storied Apartments, Primary & Secondary Schools, Hospital, Office Complex, Shopping Malls, Club Houses, Restaurant... you name it, Silver Springs has it all. But with a difference. The designs are very contemporary and elegant as also pleasantly new and refreshing. 'A dream come true' is a phrase that immediately comes to mind.

## Unprecedented planning and detailing

- \* More than 50 acres of open space
- \* A very elaborate rain water harvesting and management system
- \* Separate vehicle parking space for visitors
- \* Maintenance and security by professional agencies
- \* 2.5 km long beautifully landscaped central woodland spine
- \* Ultra modern Sports Complex
- \* Cycling tracks, jogging tracks, play areas, Zen gardens, fragrance walls, lookout tower and picnic pavilions are some of the other specially designed features

# Silver Springs is where the five elements of nature form one unique theme

The landscaping of Silver Springs Township is based on the 5 elements of nature. These are Aakash (or Sky), Jal (or Water), Prithvi (or Earth), Agni (or Fire) and Vayu (or Air). They form the theme of the five enclaves of the township.

Matching colours have been chosen for each element of nature mentioned above viz., Sky Blue for Vayu , White for Water , Yellow for Earth, Red for Fire and Indigo for Sky. These generate a beautiful kaleidoscopic effect when one moves from one enclave to the other.

Zen gardens, wind chimes and tea pavilions let you enjoy a relaxing cup of tea. 'Fragrance walls' and wind gardens are some of the unique features used in different enclaves. The planning and the creativity have to be seen to be believed!

If these are sights worth seeing, then imagine the joy of actually living amidst these wonders!

# Silver Springs is more than a location, a locus of the natural kind.

Silver Springs is strategically located on the Agra-Mumbai Bypass, in close proximity to Khandwa Road.

The AB Bypass road is on the axis of development of Indore and is just 10 minutes drive from Bhanwar Kuan intersection of the city. The bus stand and railway stations are 8-10 kms away and the airport is at a distance of approximately 16 kms.

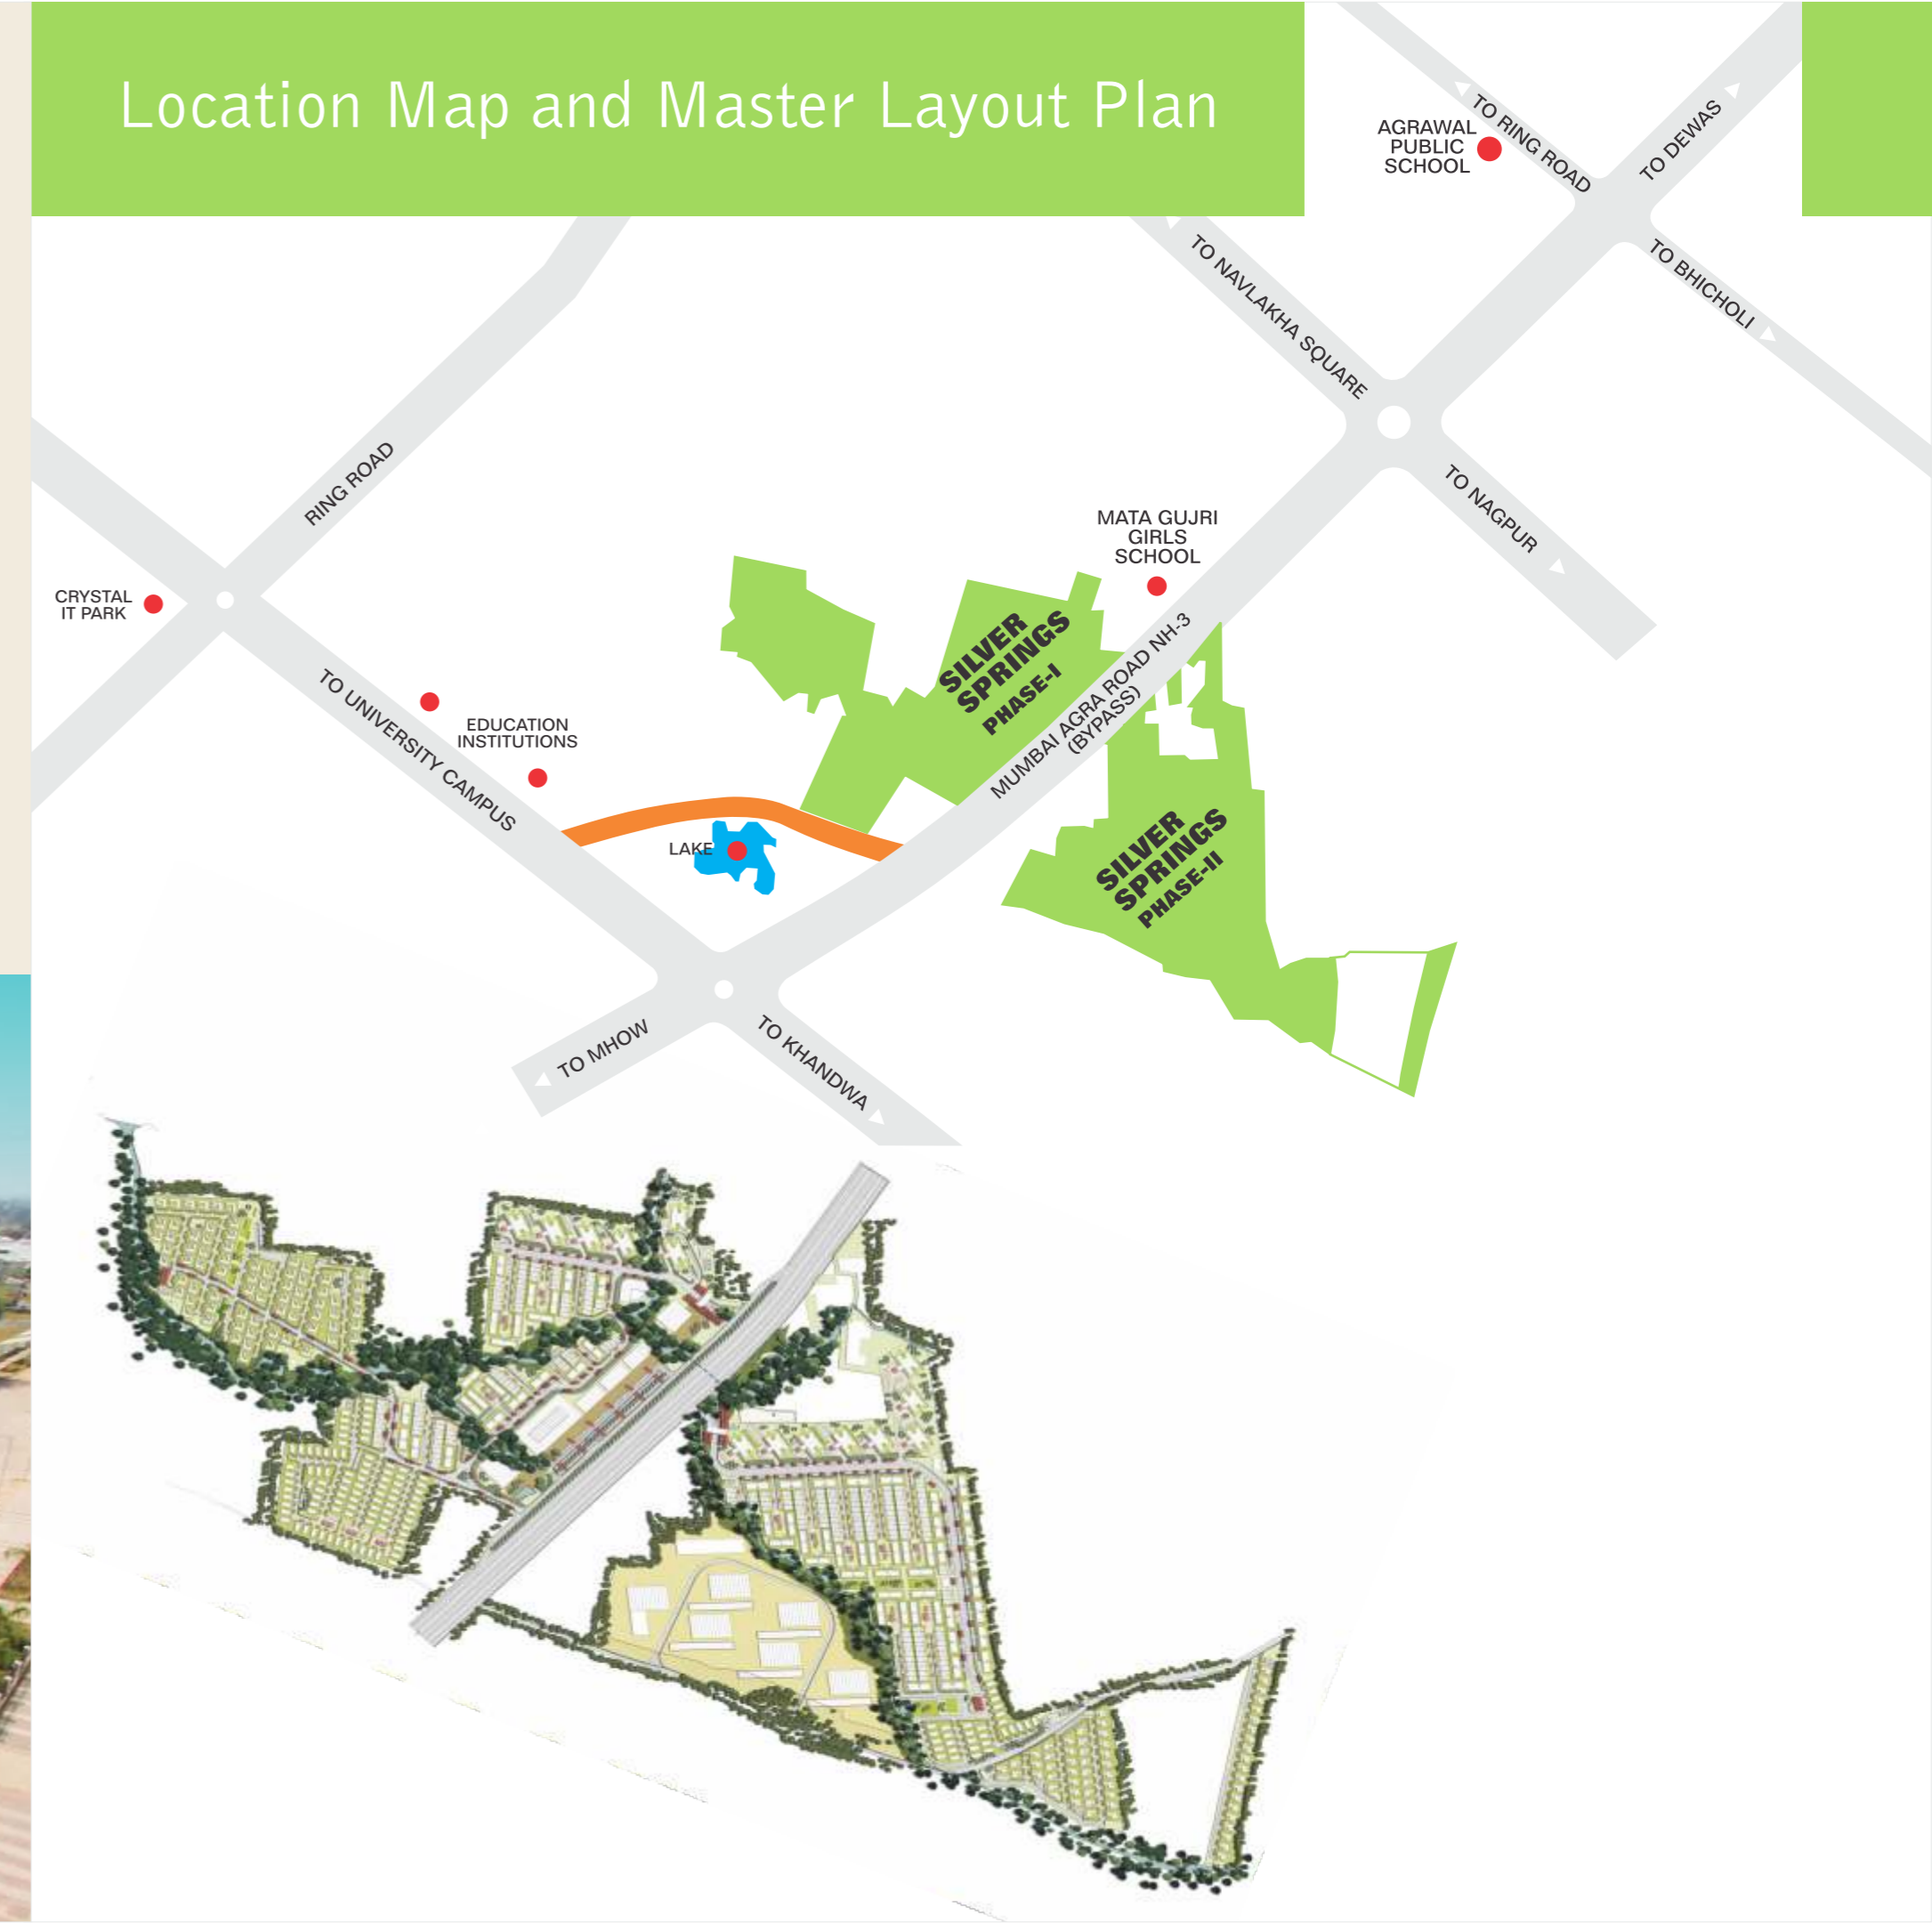

Silver Springs has been planned and designed in such a way that it uses the natural surroundings to great effect, without disturbing the ecological balance of the region.

To add to the scenic beauty, the township has been built around an approximately 2 kilometers long, beautifully landscaped 'central woodland spine'. The 'spine area' itself will be utilized for a cycle track, a jogging track, picnic pavilions and a lookout tower.

Promoters

Silver Realities & Infrastructure Pvt. Ltd. (SRIPL), a joint venture company between FIRE Capital Fund Mauritius Pvt. Ltd. and its Indian partner, M Jhaveri Group of Indore, has been formed for the development of real estate projects like integrated townships, IT parks and retail malls in the state of Madhya Pradesh.

The M. Jhaveri Group has interests in real estate, finance and trading. It has been involved in real estate development in Indore for the last 20 years, having developed approximately 1 million square feet of built-up area and over 200 acres of land as residential colonies. Prominent constructions include Silver Arc Plaza, Silver Castle, Silver Stud, Silver Arcade 56, Silver Mall, Silver Oaks, Silver Palace, Silver Enclave and Silver Hills.

FIRE (First Indian Real Estate) Capital Fund is a real estate centric private equity fund with US based investors and takes equity positions in greenfield projects. FIRE Capital fund has so far invested in fully integrated township projects of international standards in several cities of India like Bangalore, Nagpur, Jaipur and Chennai. FIRE Capital Fund, through its various investments, is involved in the development of residential and commercial built up space estimated to be over 50 million sq.ft.

FIRE Capital Fund takes strategic equity position in real estate development projects with active, "value added" participation across the development spectrum from planning to execution and development management. Each of FIRE Capital's township projects can be characterized as mixed-use build-ups that focus on residential development, but also lay significant emphasis on building for offices, retail, hospitality, healthcare and education. These projects are primarily targeted towards the middle and upper-middle income segments through products of superior quality at affordable prices. Through these projects the FIRE Capital Fund has pioneered the concept of "Satellite Urban Villages" where self-contained gated developments provide a range of lifestyle options, thereby creating vibrant and harmonious communities.
