Welcome to

Navin's

A brand built on strong values

Since 1989, Navin's has been a beacon of excellence in real estate, crafting homes that stand as testaments to quality, trust and timeless value. For over three decades, we have meticulously shaped living spaces where childhood flourishes, aspirations take flight and families create cherished memories.

Rooted in an unwavering commitment to ethical business practices, integrity, transparency and superior craftsmanship, Navin's has earned the trust of generations of homebuyers. Our legacy is built on an uncompromising pursuit of perfection, reflected in the 1275 + quality checks we conduct for every project, ensuring nothing less than excellence.

With an astute focus on clear titles, design aesthetics, robust engineering and meticulous attention to detail, each Navin's home is more than just a residence—it is a masterpiece, offering not just perfect titles but also an enduring promise of security, sophistication and legacy.

We saved the best for you

CEDAR

at Navin's Starwood Towers

In nature, the Cedar tree stands as a symbol of strength, resilience and timeless beauty. Deeply rooted yet reaching for the skies, it embodies the perfect balance of stability and aspiration—just like the homes at CEDAR, the most premium tower of Navin's Starwood Towers. CEDAR is designed for those who seek more than just a home—it's for those who aspire to grow, evolve and create a life of meaning.

With spacious 3 BHK residences, CEDAR offers the flexibility to shape your space to match your journey—whether it's a personal retreat, a growing family, or a place to nurture creativity. CEDAR offers a rare blend of urban connectivity and peaceful living. With 100+ thoughtfully designed ready to use amenities, cutting-edge smart home technology and a commitment to sustainability, every detail is crafted to enhance your living experience. Like the Cedar tree, a home here is built to stand the test of time—a space where your roots grow deeper and your aspirations reach new heights.

Welcome to CEDAR.

A home that grows with you.

Why choose CEDAR?

A home crafted for growth, comfort, and security — offering a premium lifestyle, extra space, sustainable living and the innovation of MIVAN technology, all in a prime location.

Extra Space

Spacious 3 BHK Residences offering flexibility with multifunctional spaces for your evolving needs.

MIVAN Technology

Advanced construction ensuring durability, precision, and faster delivery.

Less Heat Transmission

The design minimizes electricity usage by using recessed windows & wardrobes to block direct sunlight with a North-South orientation to reduce harsh sunlight.

Cross Ventilation

The design enhances energy savings by utilizing ample natural lighting and cross-ventilation in the living rooms.

Live in the Heart of Connectivity

Quick Access

Only 15 minutes from Velachery, ensuring easy access to key city hubs.

Strategic Position

Situated at the crossroads of OMR, GST Road, and the 100-ft Radial Road—experience seamless connectivity at its finest.

Connectivity

Easy Connectivity Metro stations near Medavakkam and OMR, along with the airport close by, make commuting smooth and hassle-free.

Tranquil Surroundings

Escape to the peaceful ambiance of Nanmangalam's reserve forest, while staying connected to the city's energy.

Abundant Groundwater

Enjoy the luxury of one of Chennai's few areas with ample groundwater—an exclusive advantage for urban living!

Sustainability Leadership

We believe luxury and sustainability go hand in hand. Our IGBC Gold-certified Green Buildings reflect our commitment to both energy efficiency and superior indoor air quality. We've designed every corner with care, from solar-powered common areas and water-efficient fixtures to heat-reflective tiles that keep your home cool and comfortable. From EV charging stations to eco-friendly paints, we're taking steps toward a cleaner, greener tomorrow. It's more than just building homes—it's about building a future, where living well means living sustainably.

Ample ventilation
Well lit spaces with great air quality

Solar power for common areas
Efficient motion sensor lighting

Low VOC paint reduce exposure to
harmful toxins

EV charging points benefits the
residents & the environment

Grey water recycling and
rainwater harvesting

Usage of heat reflective tiles
on terrace to reduce the use of air
conditioners & electricity consumption

Water efficient plumbing fixtures

Extra space, Extraordinary Living

Our extra spacious 3 BHK homes offer more than just extra space—they provide flexibility to suit your lifestyle. Multifunctional spaces woven within the unit adds a layer of versatility, whether you need a home office, a playroom for your kids, or a guest room for visiting family and friends. The spacious layout ensures that your family can grow into the space, with room to relax, entertain, and live comfortably.

This thoughtful design ensures that no matter how your needs evolve. Your home at CEDAR by Navin's Starwood towers will always have the perfect space for you.

The extra space allows you to customize your living experience, making it ideal for those who desire both luxury and functionality.

electronics all over the house.

Strength that stands tall, powered by MIVAN technology

MIVAN Formwork Technology (MFE) is a revolutionary aluminium formwork construction system.

MFE has been successfully used in 16 countries and developed for over 30 years, for forming cast in place reinforced concrete building structures.

Using this unique system, all walls, floor slabs, columns, beams, stairs & balconies, together with door and window openings are cast in place in a single site based operation.

The resulting building structure is very strong, accurate in dimensions and tolerances, and has a high quality of finished concrete surface.

The edge MFE offers over conventional construction methods is that it enables timely delivery of apartments with consistent quality even in a market where skilled labour is becoming scarce.

The use of this revolutionary construction technology enables Navin's to live up to, if not enhance its standards of excellence, consistency and timeliness.

The main characteristic of the MFE Formwork Technology is that it makes use of concrete as the principal building material.

Concrete in MFE Formwork Technology also brings additional benefits in terms of its build, quality and strength.

Other salient features that make MFE Formwork Technology a brand leader is its resistance to earthquake tremors, its resistance to fire, rot and vermin attack; its low noise transmission with good thermal capacity and its proven durability, giving long life, with little maintenance.
