*A view that makes **Feel privilege***

Beautifully carved with chosen designs & unbelievable luxurious space,
Silver Bungalows is where nature and luxury reside together.

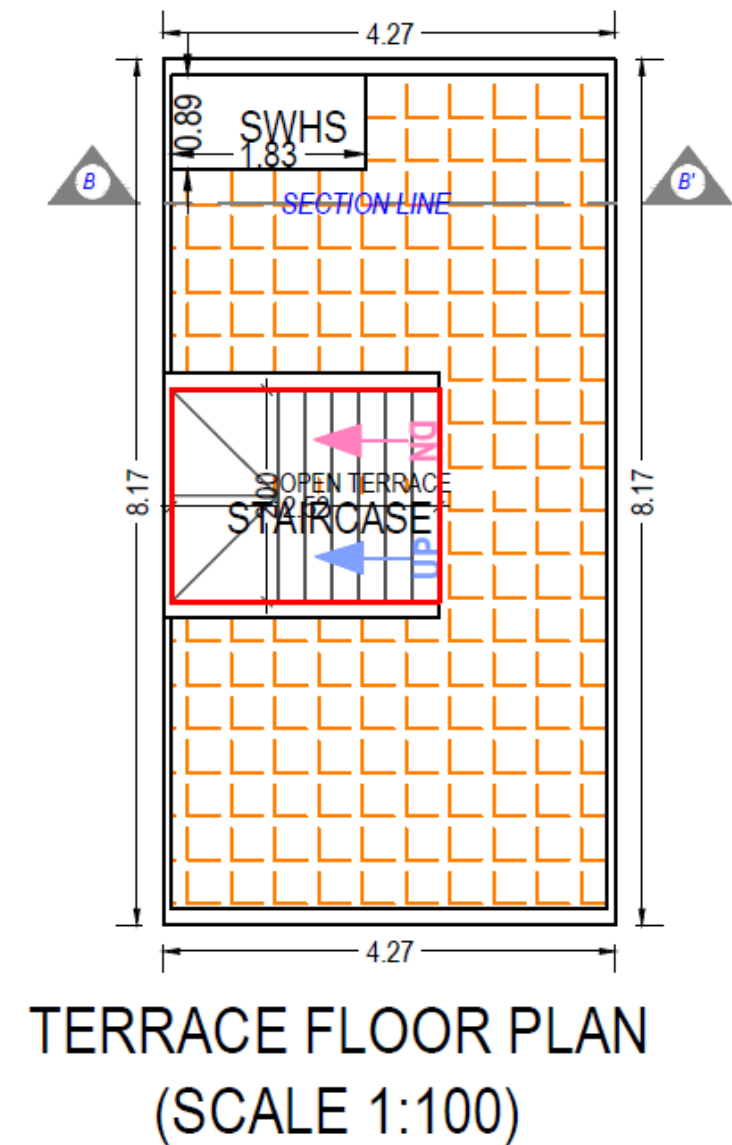

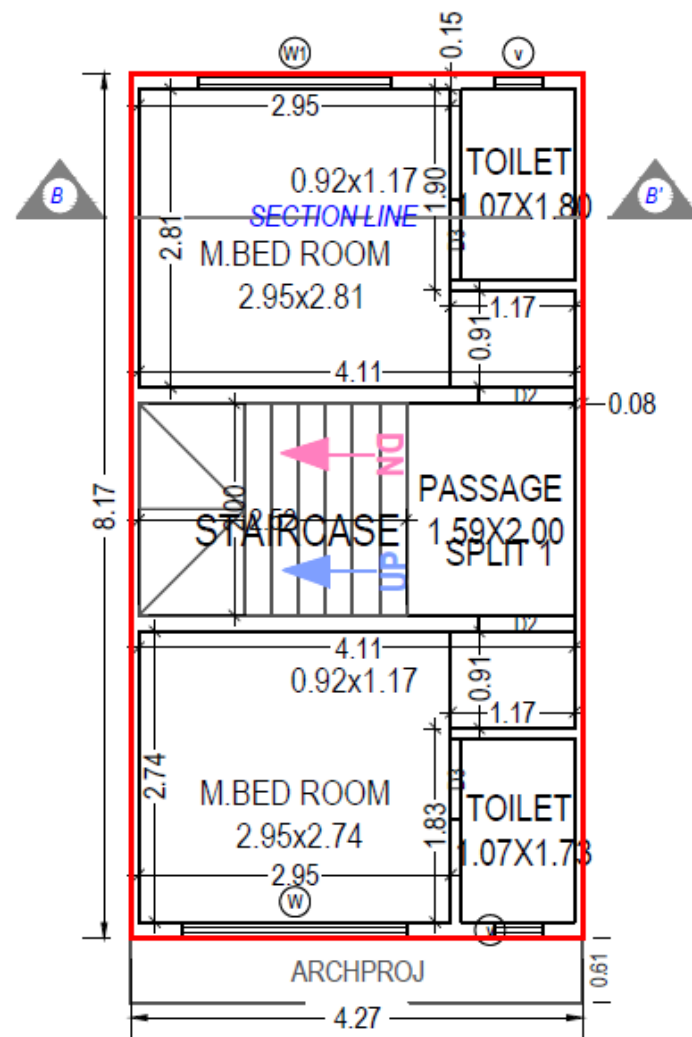

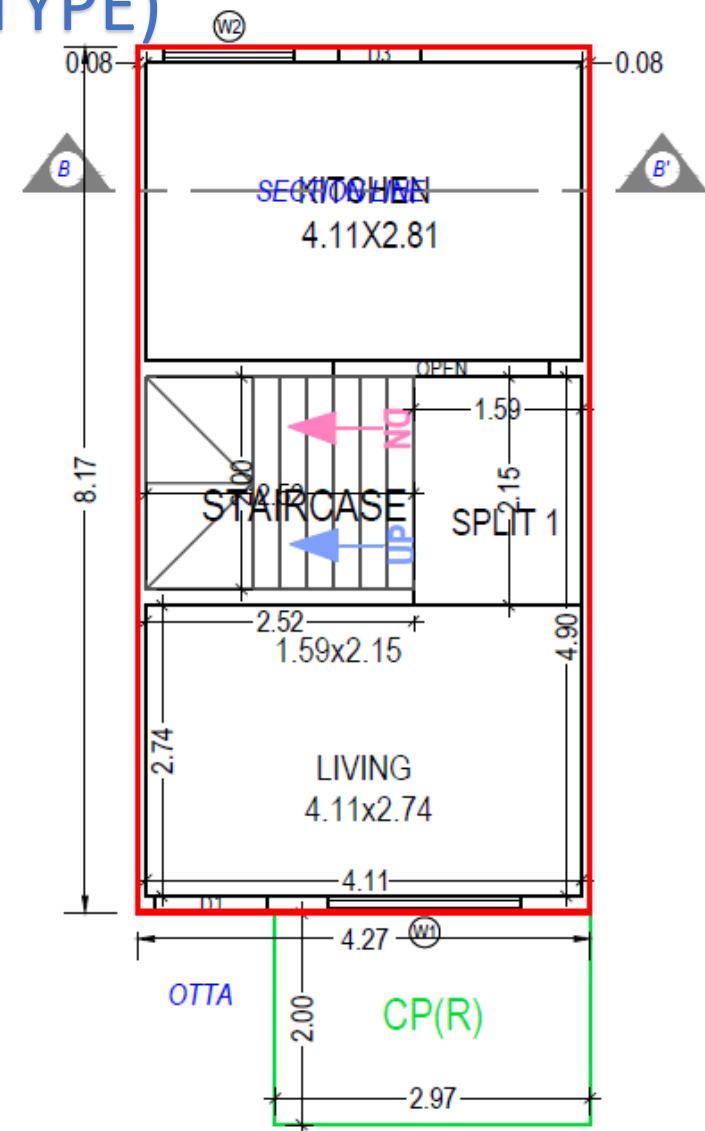

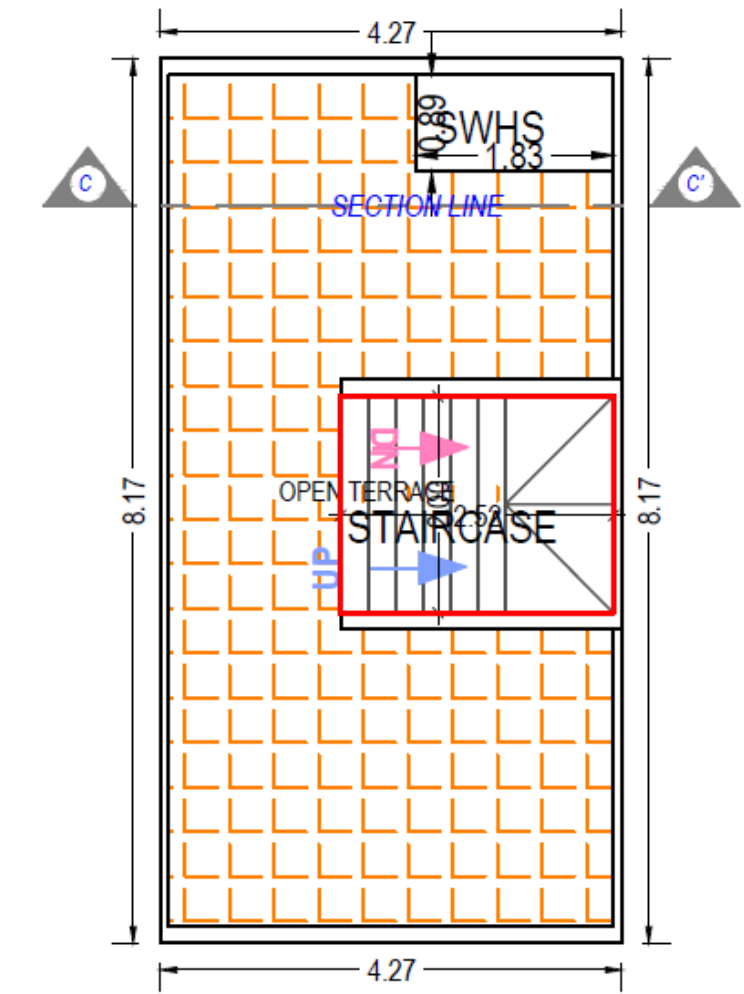

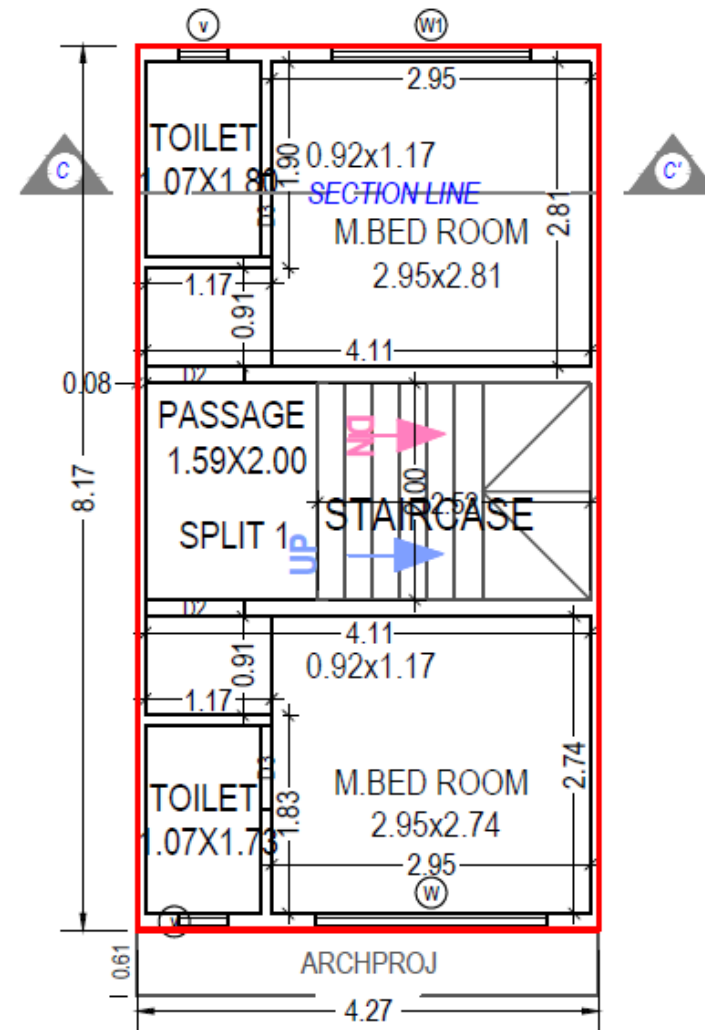

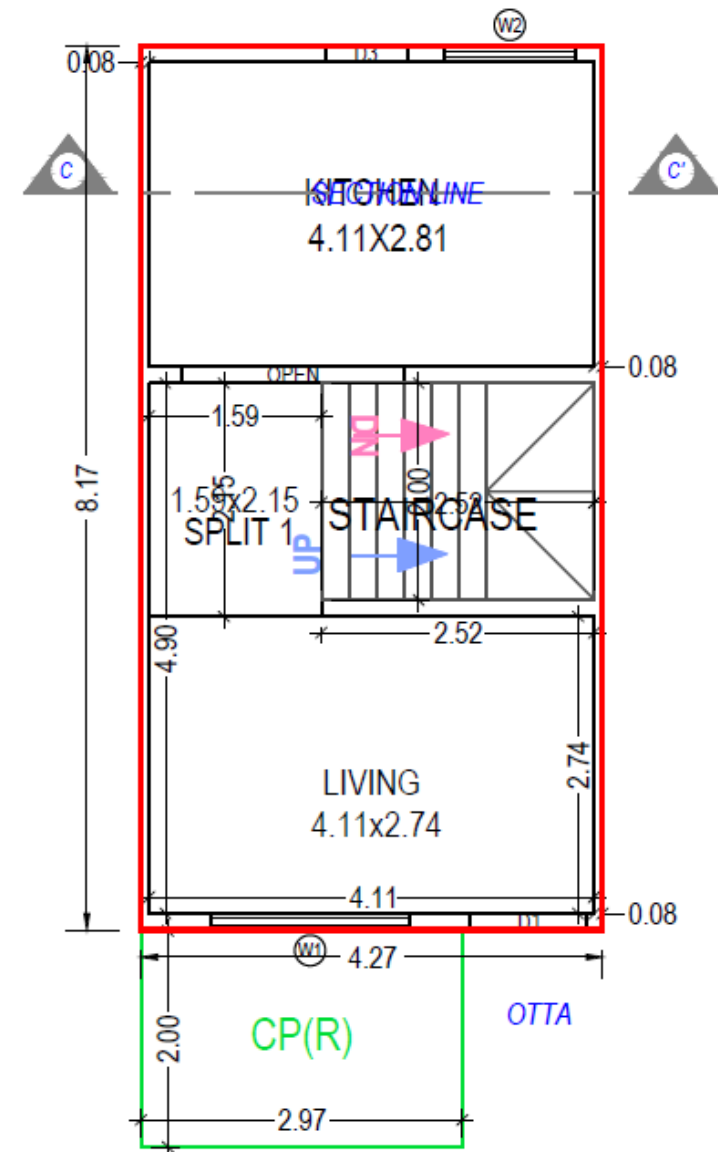

This detailed site plan illustrates the proposed development. It features two main rows of buildings, each divided into individual plots. The top row consists of plots numbered 11 through 18, while the bottom row includes plots 10 through 1. Each plot contains a red-hatched rectangular area representing the building footprint. Labels for each building specify its type (e.g., C-TYPE, D-TYPE), height (6.55 MT.), and number of floors (2). A central horizontal corridor is labeled as a "6.10 M.T WIDE INTERNAL ROAD" with an area of 279.46. To the right, a green hatched area indicates a "7.50 M.TY WIDEXISTING ROAD". Various dimensions are provided throughout the plan, including plot widths (ranging from 4.27 to 5.94) and overall site boundaries. Key infrastructure elements like "P.W.S" (Public Water Supply) points and "ROAD" labels are also shown.
