RISING UP TO CREATE ENCHANTING EXPERIENCES

The project is a celebration of nature, intricate craftsmanship, meticulous planning and high-quality robust materials. The distinctive and uncomplicated facade that opens up to stunning views of the city and the park while allowing in ample sunlight throughout the day is like witnessing a dance of modern architecture on the tunes of natural elements – all synchronized into a harmonious piece of elegance, serendipity and sustainable luxury.

Externally, the building stands as an embellishment to the lush verdant garden glimmering in its full glory. And inside - it presents an air of abundance inspired by nature, comfort derived from intricate design, and luxury lured by intelligent craftsmanship.

Amit Ghatge
Architect

5 Maidan was conceptualized as a living ode to the art of balance. We were inspired by nature and man alike. We wanted to capture the essence of both tranquillity and late night celebrations. And hence we designed homes that set you free and yet keep you rooted.

Well Ventilated Homes

A well ventilated home ensures fresh air in abundance and reduces fatigue and accidents. Our large windows with covered and shaded balconies ensure our homes are HIGH ACH and safe homes.

More Air Changes
per Hour (ACH)

Large Windows
& Balconies

Air Changes per Hour (ACH) is a measure of the number of times the air within a defined space (a room or the house) is replaced by ventilation.

Scientific analysis has helped identify key factors that contribute to maintaining optimum temperature levels within a home at 5 Maidan by allowing more Air Changes per Hour (ACH). Adequate measures have been taken, from the right window size to the spacious living room, to keep the temperature within your home pleasant all day long.

Brighter Homes

Poor lighting reduces visibility and causes accidents. Large windows in all our rooms ensure ample natural light is available through the day. Our homes have high LUX and are brighter and safer.

Sun Path Aligned Homes

Less Heat, More Natural Light

Larger Shaded Windows & Balconies

LUX is the measure of the intensity of light within a place, as perceived by the human eye. Homes at 5 Maidan exceed the pre-requisite standards of illumination as prescribed by the National Building Code.

Scientific analysis has helped identify key factors like right window sizes and shading solutions that allow more sunlight inside the house and give good quality of glare free light throughout the day.

More Space, More Living

Space to learn something new, space to create memories with loved few.

In today's busy world, you now have the space and the liberty to experience your life your way. Spacious homes that enable each one in the family to live life in their own unique way and pursue their interests. Homes that are big and cozy for the entire family to come together and experience the joy of togetherness.
