Modern living demands a home that combines the kitchen, living/family space and dining room designed with an ideal Floor Plan. An open floor plan invites light, air, flexibility and style into your home. That's why the ground floor of Exclusive Floors is loaded with high specifications. Every room here is designed exclusively with special features. For example, the bedroom floorings of the floor flaunt laminated wood design, the anti skid tiles in the toilets and verandah make it safe and sober. Meticulously designed, the ground floor plan creates a spacious feel.
