“

Our Saina is at the right age to be moulded and offered the right exposure. Having all these academies, led by the country's best names definitely presents her with the finest training opportunities. As a concerned family member, it feels great to be able to offer her the best. The added convenience of having it right here at home is a sheer delight.

Makes me wonder why did someone not think of this before.

”

Krinal Dewangan - A Gera Resident

“

Vivaan has become a more confident and capable swimmer thanks to the coaches at Song of Joy. Now he looks forward to workshops and swimming is a hobby he thoroughly enjoys.

Rohit Shahdeo - A Gera Resident

“

It has been nearly a year since our child Anviti joined the Mahesh Bhupathi Tennis Academy. From not being able to hold a racquet properly to now playing the entire court...I think Anviti has indeed picked up the sport pretty well. We feel fortunate to have a facility of this calibre within GreensVille itself, that helps save commuting time and the other logistics of handling home and work when pursuing a sport for recreation or development.

I wish we had opportunities like this when we were young, and in our formative years.

”

Anshu Shukla - A Gera Resident

“

It's rare that a family gets to bond over shared hobbies

but with the introduction of the Shiamak Davar Dance Academy and Shankar Mahadevan Music Academy everyone from the children to their grandparents now have family memories to last a lifetime. The music and dance classes even gave us the opportunity to perform on stage in front of Mr. Shankar Mahadevan and for my wife and daughters to perform in front of Mr. Davar.

“

The Shiamak Davar Dance Academy workshop has helped my girls break out of their shell.

Mikayla and Chantelle have both become more expressive and open, not to mention more confident. They look forward to the Winter Funk workshop and I'm eager to watch them perform again.

”

Zaheda D'Mello - A Gera Resident

“

What Gera offers us at our doorstep is great.

Thanks to Shiamak Davar, Lillette Dubey, Mahesh Bhupathi and many more academies, the opportunities for our children are endless. I look forward to my daughter exploring what she is passionate about and discovering the same.

”

Ankitha Agarwal - A Gera Resident

“

Owning a commercial space at Gera's latest offering in Goa, Gera Grand, has been a wonderful experience. Right from the time of the booking to the timely delivery of the project. All the processes and the administrative work was handled very professionally. We would definitely recommend a Gera commercial property to any prospective buyer keeping in mind the prime locations, timely delivery, the best-in-class construction quality and the ease of doing business.

”

Sanjay Govind Bharne - Gera's Imperium Grand

“

The best thing I have done for my kids was to move into a Gera home. My son could attend the development workshops right at our doorstep and overcome his shyness. The Dale Carnegie workshops have given him a lot of confidence and have helped him improve his presentation skills. Even now he looks forward to attending all the programs.

”

Simi and Biju Bhuvanendran - Gera's Trinity Towers

“

My experience with Gera has been excellent. I own an office in Gera's Imperium 2 and a shop in Gera's Imperium Green in Mala. The third property that is being finalized is a shop in Gera's Imperium Star. The staff is always helpful. And Gera has built a reputation for completing projects on time. That's what makes them one of the country's most trusted developers.

EMBRACING A SUSTAINABLE BALANCE

At Gera Developments, nature is a way of life. We firmly believe that every project we undertake should be a reflection of our relationship with the environment - nurturing, harmonious and sustainable. These are some of our focus areas that help us achieve our environmental goals.

WATER CONSERVATION

We take a comprehensive approach to water conservation, combining efficient recycling and waste reduction. Our recent initiative installed 200 recharge borewells in Pune for rainwater harvesting, replenishing groundwater. Our projects feature sewage treatment plants for wastewater management, along with water level controllers to prevent overflow and waste.

ENERGY CONSERVATION

Every Gera project is thoughtfully planned to conserve maximum energy wherever possible. From the auto shut off pumps and Gensets to the solar water heating system, every aspect of the Gera lifestyle features a conservation effort, big or small. This not only is economical, it's also ecologically conscious. Just as life should be.

NOISE POLLUTION

Homes should be a sanctuary of calm. The Genset with its acoustics enclosure makes sure that noise is kept to a minimum. This protects the surroundings while ensuring tranquility in your daily life. Our commitment to the environment mirrors our commitment to you.

TREE PLANTATION

Our commitment to nature goes beyond the homes we create. Over the years, we have dedicatedly worked towards increasing the green cover in the landscape through planting more trees. We have achieved this through massive community participation in our various tree plantation drives. These initiatives are an effort towards combating large-scale CO2 in the environment and creating a healthier environment for all. This ensures a sustainable present for us and a more beautiful tomorrow for future generations.

MATERIAL SELECTION

Recycling is a crucial part of building sustainably, so we put industrial waste such as fly ash in bricks, concrete and plaster, to use in our construction. Because we believe, it's not enough to build landmarks that make heads turn. It's important for our hearts to be in the right place when we build. Only then can we truly outdo.
