Urban Planning plays an imperative role in the efficient functioning of a community. S.V. Living Green has been planned around the natural topography of the land. Encompassing a total of 9.5 acres.
A hierarchy of open spaces helps distinguish between spaces of strategic, local and neighbourhood importance, increasing the common understanding of the functions they perform. With a mix of plot sizes ranging from 1000 sft to 3000 sft, the community will cater to varying market needs. Facilities have been strategically located and spread out across the community to ensure that no matter where a resident stays, distances are easily bridged.
