PROFILE

WE ARE LOCATED WHERE OUR CLIENTS NEED US MOST

We have our headquarters in the heart of the pearl city, Hyderabad with a wide network of people creating and building relationships.

WHAT WE DO

For over seven years, we at Pride India have developed smart, technology-enabled residential gated communities to solve our clients' toughest challenges of acquiring a home that provides peace, comfort and modern facilities among others, demonstrating a commitment to excellence and a passion for exceeding expectations.

Since inception, we have remained at the forefront of our business because we understood how to use technology to change, innovate and to deliver value to our clients.

YES, WE DO AMAZING THINGS

We are often asked, "What is it that you do"? We tell them, humbly and yet truthfully: we do amazing things. We help to solve big challenges - Housing and facilities connected with it, complex design aesthetics and construction processes, costs & affordability matters.

Watch 3D walk through of our project, which brings live reflection of the efforts that have been put in to deliver the much appreciated front elevations and interior design.

OUR MANAGEMENT

Our management has an average of over 10 years experience in real estate and housing development and a strong history of business, academic and artistic project accomplishments.

7+ YEARS OF SUCCESS

It started with a zeal to dream and dream big. From the moment Pride India was born, ingenuity has been a driving force behind our success...

*...and we also **celebrate** life!*

*carry the pride of **accomplishment**!*

over the years the projects we have initiated and developed have been very successful and the people who have owned the same are enjoying the enormous appreciation both in their status and the value of properties, enabling them to carry on their life with pride...

Let your pride allow you the warmth of a hard earned success

181 - 3 BED ROOM
(Area - 1272 Sft.)

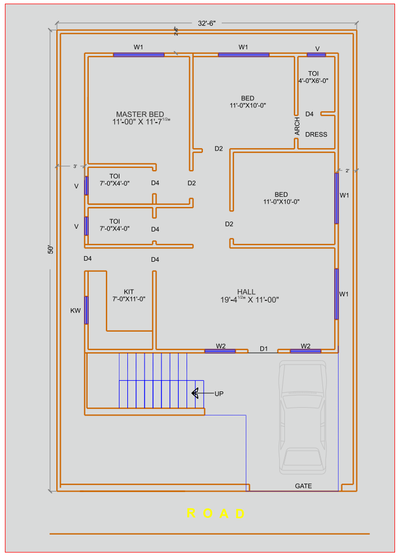

So far, our most sought plan after configuration, three bedroom home allow for a wide number of options and a broad range of functionality for any homeowner.

A single professional may incorporate a home office into their house plan, while still leaving space for a guest room.

A young couple can set up the perfect bedroom for their child while maintaining space for a study, for guests, or even for another addition to their family.

You can now desire a quiet retreat from noisy teens' bedrooms. A master suite well separated from the other bedrooms is your best bet. You can now have convenient access from room to room on a higher priority.

Proximity — particularly on the same level — is the key. Carefully considering how the three bedrooms will be used — and may be used in the future — will ensure that you have selected a right house that serve you and your family well for years to come.
